Donation Form

Betty Mayne Scientific Research Fund for Earth Sciences The Joyce W. Vickery Scientific Research Fund

The Council of the Linnean Society of NSW is keen to increase this form of direct financial support to the scientific community – to professionals, students and amateur researchers alike.

The only way it can do this is by increasing the capital of the BETTY MAYNE SCIENTIFIC RESEARCH FUND for EARTH SCIENCES and the JOYCE W. VICKERY SCIENTIFIC RESEARCH FUND and thus augmenting the interest used for direct support of scientific research.

The Linnean Society seeks donations from individuals, institutions or organisations sympathetic to the purposes for which the fund is currently being used. All such donations, which are tax-deductible, will be gratefully received by the Linnean Society of New South Wales and used to support original scientific research in Australasia. Give yourself a tax break and help a struggling research student, as most of the funds go to students.

Details of each Research Fund and a list of recipients and projects can be found on our web page at <http://linneansocietynsw.org.au>
