

Your invitation to a scientific event

# Natural History of the Belubula River Valley

## & the adjacent area of central western NSW

### including the Cliefden Caves & Fossil Hill

A symposium to explain, interpret and review recent scientific research on geology, palaeontology, botany, zoology, and speleology of the caves and karst.

Part of the campaign to save the Belubula Valley and environs from flooding by a proposed dam which would result in the destruction of the caves, fossils, bats and other fauna & flora

**WHEN:** Monday 7th to Thursday 9th September 2015

- Monday 7th (6pm – 8pm) - Drinks and registration at the Australian Fossil & Mineral Museum
- Tuesday 8th (8:30am – 5pm) - Symposium at Bathurst RSL Auditorium
- Wednesday 9th (9am – 5pm) - Symposium continues at Bathurst RSL Auditorium
- Thursday 10th - Field trip to the Cliefden area - registrations for the field trip are now closed

**WHERE:** Bathurst RSL Auditorium, 114 Rankin Street, Bathurst

**WHY:** Because the caves, fossils and geoh heritage in the Belubula Valley are under threat from flooding by a proposed dam

**WHAT:** Talks from experts; posters, maps and displays; excursions to the famous Fossil Hill, Cliefden Caves & thermal spring

**WHO:** Anyone with an interest in learning more about the Geology, Geoh heritage, Karst and Caves, Biology, the Rivers, Fauna and Flora will find this a pleasant and enlightening experience
